ADMIN INFORMATION SYSTEM

Admin view - Placements list table
Table and form drop down

Scaling up
The current mock up is an example of 1200px UI. Scaling up to 5 columns for 1600px + as with the rest of the admin UI form layout.

Scaling down
Once the forms are scaled down past 3 columns the form should then scroll as aposed to scaling too 1 column for mobile. This is due to the fact that the tables will not be scalable to this extent.
So once the information in the tables begins to fold onto 2 lines, the forms should become scrollable, not collapse.

Navigation
This should have the pink slither above People in Navigation, and the label 'People' is white.

Table headers
The table colours follow the same colours form the Trainee UI. However the weight of the lines is 1px in each respective colour:

Orange (#EC8A00) for Furure
Green (#78BE20) for Present
Grey (#768591) for Past

Create placement button
Remove the current plus sign from any buttons. Make sure that the primary colours are used for bscreens with multiple butotns. Ie, on Placements we have 2 buttons. Create placement in the top right corner and Save is a floating button associated with the forms. The save button is Purple. Make sure that the secobndary button is the following blue:

Secondary (Create) buttons are Blue (#005EB7)

Phone Number   9px
07265594268   16px
