

Health Education England

ADMIN INFORMATION SYSTEM

Admin view - Search and Tables

Table functionality in: People, Posts, Programmes & Assessments

The tables vary for each component

The tables will need to have different sorting/filtering/searching functionalities for each component due to the data, and the way the users sort the content when using 'Search' and performing tasks.

Admin View - Search (Smart) and results in Tables: Showing table content, functionalilty and style

This is an example in People. The stytlng will follow throughout the system. The searchable functionality and table sorting/functionality varies between ‘Sections’, - People, Posts, Programmes and Assessments all have their own types of filters and functionality on their tables.

The sorting interaction in Forenames is below

The list can revert and the arrow that is active becomes 'Light' the arrow which is 'Inactive' is still dark, as with previos state
