

**Health Education England**

## ADMIN INFORMATION SYSTEM

# Admin view - Search and Tables

Table functionality in: People, Posts, Programmes & Assessments

**The tables vary for each component**

The tables will need to have different sorting/filtering/searching functionalities for each component due to the data, and the way the users sort the content when using 'Search' and performing tasks.

# Admin View - Search (Smart) and results in Tables: Showing table content, functionality and style

This is an example in People. The styling will follow throughout the system. The searchable functionality and table sorting/functionality varies between 'Sections', - People, Posts, Programmes and Assessments all have their own types of filters and functionality on their tables.
