Health Education England

Admin view - Search and Tables

Table functionality in: Programmes

The tables vary for each component
The tables will need to have different sorting/filttering/seraching functionalities for each componenet due to the data, and the way the users sort the content when using 'Search' and performing tasks.

Admin View - Search (Smart) and results in Tables: Showing table content, functionalilty and style

This is an example in Programmes. The table functionality is Sorting, and Filtering by selection (Multiple options to select as with the other Compnenets tables)
