Adding a Rotation

The process for adding a Rotation begins in the Admin area of the Primary navigation (L1)

Assigning/De-assigning a person to a rotation

This process will be completed from a Person Record at the L3 dropdown under 'Rotations'

Admin View - Creating/editing Rotations user journey based in 200px grid.

The list in the Mega Menu for Admin is what we currently have in there. However this may well change, and groups need to be determined with headers. So this is just an example.

Update

Populating the fileds will lead to the Save function being available.
This will then add the rotation to the table below
